

# ING News: Push Notifications available on “My ING”

ING is proud to announce the launch of its push notifications system for “My ING”, its online banking application. Thanks to this system, its clients are now able to activate and receive their alerts through Push Notifications, both for iOS (Apple) users and Android users, via smartphone or tablet.

## Empowering clients...

With its alerting service, ING was already giving its clients “peace of mind”. Now through push notifications, it gives them an effortless experience and ING aligns completely with the way people are used to communicate with one another nowadays.

## Easy to activate !

Clients will need to update their “My ING” app through their store (Appstore or GooglePlay). Afterwards, they will have to login to the app, go to “My Alerts” – “Preferences” and tick the box “Enable push notifications”.

ING is the first universal bank in Luxembourg to provide an alerting service for its clients and is very proud to be recognized for empowering its clients to stay on top of their finances, for offering them peace of mind and for helping them make smart financial decisions.
